OLD SEDITION CASE OF 1944 IS DISMISSED

U. S. DEPARTMENT OF JUSTICE PLANS TO APPEAL

Washington, Nov. 22 (AP)—Chief Justice Bolitha J. Laws of federal district court today dismissed the sensational 1944 mass sedition case, but the justice department announced an appeal from the decision.

Laws said that to try the case again—it has lain dormant for two years—"would be a travesty on justice."

However, a justice department spokesman said that Congress passed the law against seditious acts "in the belief that it would protect the government from that sort of thing and the government is entitled to know if it does."

In dismissing the case, Laws recalled that the government's chief prosecutor in the proceedings, O. John Rogge, had stated on three occasions in open court that he doubted that the supreme court would uphold a conviction, Rogge since has been fired in a policy row with Attorney General Tom Clark.

Nazi Regime Promoted

The first trial was declared a mistrial shortly after the death of the presiding judge, Edward C. Eicher, in November of 1944. The defendants included such figures as Elizabeth Dilling, author of "The Red Network," and William Dudley Pelley, leader of the Silver Shirts.

They had stood accused, in the longest (eight months), case of its kind in American history, of conspiring (1) to interfere with the draft, (2) to undermine the morale of the armed forces and (3) to set up a Nazi regime in America.

Judge Laws said: "The defendants x x x were brought here from other parts of the country to stand trial."

"As in all long-delayed cases, the witnesses now are scattered; some are not accessible, more particularly as to the defendants who are without funds; the memories of witnesses as to events occurring many years ago are not clear."

"I do not see how these defendants can now possibly obtain fair trials."

"Under the circumstances, to permit another trial, which conceivably would last more than a year, with new prosecutors and newly-appointed counsel for defendants, with the eventual outcome in serious doubt x x x would be a travesty on justice."

The defendants had been charged with trying to stir up racial, religious and class hatreds. In addition to Mrs. Dilling and Pelley, the defendants were: Gerald Wilhelm Kunze, New York; Bund leader; August Klapprott, New York; Deputy Bund leader; Herman Max Schweinn, Los Angeles; George Sylvester Viereck, New York; Ellis O. Jones, Los Angeles; and Louis de Lafuette Washburn, of Washington.

Also, H. Victor Broenstrup, Joseph W. McWilliams, George E. Deatherage, Lawrence Dennis, Peter Stahrenberg, Frank W. Clark, Ernest Frederik Elmhurst, Charles B. Hudson, Gerald B. Winrod, E. J. Parker Sage, Robert Edward Edmondson, Edward James Sweeney, Garland L. Olderman, Eugene N. Sanctuary, William R. Lyman, Jr., and Prescott F. Dennett.

Long Climb Begun To Reach Victims Of Crash In Alps

BY ERNEST G. FISCHER

Interlaken, Switzerland, Nov. 22 (AP)—Swiss mountain climbers began tonight a gruelling race and a glider crew and parachutists prepared for desperate ventures to reach 11 passengers of a crashed American Army transport plane who had survived three days and nights of bitter cold on the icy slopes of an 8,000-foot Alpine glacier.

Experienced Alpinists said the ground party faced a 20-hour climb over rugged and treacherous terrain—the last lap on hands and knees—to the scene of the crash, 13 miles southeast of here. But there was a chance that a glider and parachutists would get their first.

Thomas Frewin, pilot of a big British glider, said in Paris he was going to attempt to land tomorrow on the 30 degree slope of the glacier in the face of prevailing 70-mile an hour winds and despite the fears of many that the feat could not be done. An American or British medical team may accompany Frewin and his six-man volunteer crew.

COLD MAY LET UP BY SUNDAY

Wild Gales Fell Trees; Snowfalls Light And Scattered

BY THE ASSOCIATED PRESS

Winter thrust exploratory fingers across Michigan yesterday, dangling sub-freezing temperatures and the first widespread snow of the season.

The U. S. weather bureau warned the lower peninsula to brace itself for 15 degree readings Saturday and said the cold snap will continue into Sunday when rising temperatures are forecast.

The spring-like balminess of Thursday gave way at sundown to wild gales that felled trees, smashed store windows and snarled utility wires in a wide area around Detroit.

Rains lashed the lower part of the state, changing to snow as the cold front moved in. Falls were extremely light.

The mercury tumbled from a high of 59 Thursday to 28 in Detroit Friday morning. Pellston reported 18 degrees for the lowest reading in southern Michigan. Above the Straits it was 17 in Sault Ste. Marie and 14 in Houghton.

Upper Peninsula snows slowed traffic in Houghton but all highways were reported open.

Whisky Prescribed For Tobacco Heart

Memphis, Tenn., Nov. 22 (AP)—A heart specialist today prescribed alcoholic drinks for persons addicted to the use of tobacco if they suffer from diseases of the heart.

Dr. William D. Stroud, professor of cardiology at the graduate school of medicine, University of Pennsylvania, uttered his prescription before the mid-south regional meeting of the American College of Physicians.

"Tobacco has a bad effect on heart disease," the doctor said, "if the person is sensitive to nicotine. The best antidote is alcohol, which dilates the arteries. We believe that it dilates the little blood vessels that supply the heart muscle with blood."

Philippines Don't Like U. S. Price On Soap Oil Products

Washington, Nov. 22 (AP)—The Philippine government is asking the agriculture department to cancel an agreement to sell the Philippine exportable supply of coconut oil and copra to this country for a period ending next July 1.

Department officials said the Philippine government is dissatisfied with the prices provided for these products, which are badly needed by this country particularly for the production of soaps.

SQUIRREL STEALS \$500

San Carlos, Ariz., Nov. 22 (AP)—Mr. and Mrs. Brack Lindley reported a thief had cut a hole in a box and made off with their savings.

Postmaster C. H. Higgins turned sleuth and came up with the culprit and the loot—a squirrel nesting in \$500 worth of shredded \$5 and \$10 bills.

SIGLER FILLS FOUR LANSING KEY POSITIONS

NEW GOVERNOR TO SET UP OFFICES IN CAPITOL

Lansing, Nov. 22 (AP)—Governor-elect Kim Sigler today filled four key positions in his new administration, which will start January 1, two of them after a conference with Governor Kelly.

Kelly appointed Prof. John A. Perkins of the University of Michigan political science department as acting budget director at Sigler's request, so the new administration may have a voice in drafting the next budget.

Sigler and Kelly also named Louis H. Schimmel of Pontiac to be Sigler's full time representative in the budget office, a new position. Schimmel is a tax consultant and was paid secretary of Kelly's tax study commission.

Sigler also appointed George R. Averill, publisher of the Birmingham Eclectic, as his executive secretary and Mrs. Lorraine Dawe of Lansing as his private secretary.

Sigler said budget hearings will start December 2, and that he and Averill planned to attend "as many as possible" of the hearings to familiarize themselves with the problems.

Sigler said he expects to set up offices in the capitol early next week.

Publisher Rewarded

Perkins is an authority on governmental research and budgetary problems and is secretary of the University Institute of Public Administration.

Kelly said Perkins would start work immediately on a full time basis. C. J. McNeil, the present acting budget director appointed after Fred C. Striffler of Caro resigned, will return to his position as deputy director.

Averill, 54, has been publisher of the Birmingham paper for 27 years and is a former president of the Michigan Press Association and the University Press club. He has been a volunteer worker for Sigler since the start of the primary campaign.

Mrs. Dawe was Sigler's secretary in the latter months of his tenure as special prosecutor of the Ingham county grand jury during his campaign for governor. She is the wife of Douglas Dawe, student at the University of Michigan medical school.

BY JACK I. GREEN

Detroit, Nov. 22 (AP)—Lieut. Gov.-elect Eugene C. Keyes lost his fight tonight for sole control of Senate committee appointments as legislators and officials of the new Sigler administration gathered for a pre-session get-together.

A Senate Republican caucus voted to make Keyes chairman of a "committee on committees" which would continue the Senate membership's control of committee appointments.

Senator G. Elwood Bonine, Vandallia, defeated Senator Don Vanderwert, Fremont, for the post of caucus chairman in an election which observers said indicated that Vanderwert lacked the votes to retain his position as chairman of the important Senate Finance and Appropriations Committee.

Grand Jury Fines Gambler \$15,000 In Macomb County

Mt. Clemens, Mich., Nov. 22 (AP)—The Macomb county grand jury today brought its receipts almost up to expenses by assessing five admitted gamblers a total of \$15,000.

The five were accused of operating and maintaining the former swank club Royale in East Detroit as a gambling establishment in warrants issued Wednesday by Judge Herman Dehnke, one-man grand juror. They pleaded guilty Thursday.

Each was fined \$1,000, the limit on the charge, assessed \$2,000 costs, and placed on probation for two years.

Of the total \$15,000, the county library fund will receive \$5,000 and the other \$10,000 will be divided equally between the county general fund and the state police, whose officers have taken part in grand jury investigations.

The split will bring total grand jury receipts to \$14,750. Expenses totaled about \$15,000 for the first seven months and another equal amount has been appropriated for next year's operations.

In the quietest sentenced by Judge Dehnke today were Thomas J. Kelly, 60, of Dearborn; Charles A. McNamara, 50, of Burt Lake; and Moses Polinsky, 61, Samuel Weisman, 47, and C. P. Samuel, 45, all of Detroit.

ONE STEAK, PRICE \$3,437.50—TWA Hostess Mary McCorkle, of Kansas City, Kan., whistles — but loud — as E. W. Williams, local packing house owner, tells her that the glass-protected steak he's handing her is worth \$3,437.50. It was cut from Grand Champion Steer T. O. Pride, which recently sold at auction for \$43,026. Steak sells for \$1,250 a pound and this one weighs 2 3/4 pounds. It was flown to Pittsburgh to be given as a prize on a radio show. (NEA Photo.)

Detroit Boy, 14, Lives As Girl For 4 Months To Hide From Police

Detroit, Nov. 22 (AP)—The strange case of a 14-year-old boy who masqueraded as a girl for four months and went on "double dates" with men to avoid being returned to a training school came to light today in Recorder's court.

Accused of conspiring to hide the boy from police, the parents and another woman pleaded guilty to charges of interfering with legal custody of a ward of juvenile court. A third woman accused in the plot pleaded innocent.

The boy, Kenneth Scranlin, escaped from the Wayne county training school at nearby Northville four months ago, according to police, and returned to the home of his mother, Nettie, who was separated from his father, Thomas.

Patrolman Arthur M. Tulke arrested Kenneth at the home of Miss Opal Irmie, 22. Miss Irmie agreed, at Mrs. Scranlin's suggestion, to dress the boy as a girl and supplied him some of her clothing, Tulke said she admitted. He said she told him Mrs. Betty Fetherby, 21, also gave him some of her clothing.

Miss Irmie also admitted that she and Kenneth, dressed as a girl, had gone on "double dates" together with men, according to Tulke.

On one occasion the disguised Kenneth was introduced by a policeman's son to his father as "my girl friend," according to Miss Irmie.

The patrolman said Kenneth's father was aware of the scheme and visited the boy many times at Miss Irmie's home.

Arraigned before Recorder's Judge John P. Scallen, the parents and Miss Irmie pleaded guilty.

Mrs. Scranlin and Miss Irmie were released on \$500 personal bond each but Scranlin was placed under \$4,000 surety bond and remanded to the Wayne county jail. Mrs. Fetherby pleaded insanity, waived examination and was released on \$500 bond.

Kenneth, a boy again, was held at the juvenile detention home.

RUSSIAN AGENTS ACTIVE IN U.S.A.

Secret Police Operating To Belittle America, Says ExCommunist

Washington, Nov. 22 (AP)—Louis F. Budenz, former Communist editor, testified today that Russian secret police probably are operating in America as part of a Soviet conspiracy "against the people and safety of the United States."

Budenz, who renounced Communism and the editorship of the Daily Worker to rejoin the Catholic church, told the House committee on un-American activities that "military conflict" could flow from the conspiracy he described.

He testified he knew secret Russian police "were here because I dealt with them for two years." He added that "they were here for a number of months" in 1936 or 1937 and, when asked whether they still are, Budenz replied: "I certainly am of the opinion they are."

He named Gerald Eisler as the top man in American Communist circles, describing him as the man who "brings the line of the party" from Moscow. Budenz said Eisler also is known as Hans Berger.

Budenz, an Indianapolis native who now teaches at Fordham, told the committee Russia is using the United Nations forum to belittle the United States and asserted that the Soviet Union is seeking to undermine this government.

BALKS AT FLEAS

San Diego, Calif., Nov. 22 (AP)—Letha M. Wagoner testified today at the trial of her suit to divorce George W. Wagoner.

"We were married May 23, in Yuma, Ariz., and when the honeymoon was over, my husband made me sleep with the dog. That was not so bad but the dog had fleas." She was granted a divorce.

Deer Season Toll Stands At 24 Deaths

(By The Associated Press)

Michigan counted 24 hunters dead today (Friday) as snow and cold weather gripped most of the deer hunting area.

Only nine of the deaths were attributable to gunfire. Seven persons died in traffic accidents en route to camps and eight others met death from heart attacks or illness aggravated by over-exercising.

The toll from all causes in 1945 was 26 but the death rate from gunfire over the entire 16-day season was only nine.

Two elderly hunters turned up alive and well after being missing for hours. However, new searching parties set out on the cold trail of two others reported missing during the day.

The coldest weather of the season greeted those hearty souls who tumbled out of their beds in the northland this morning. The weather bureau promised temperatures in the teens for Saturday.

Light snow flurries were general throughout the state.

Prize trophy of the hunt thus far was exhibited by a Lansing hunter, Ronald Best, who bagged a golden eagle at Mitten Lake in Mackinac county.

Hunters Safe

The conservation department was unable to recall when the last such eagle was shot in Michigan. The birds are frequently seen in the state but are seldom killed because they resemble a bald eagle which is protected by law.

However, Best shot his bird in self defense after it dove on him cawing. At Newberry conservation headquarters it measured seven feet, two inches in wingspread.

New deaths reported during the day included Dr. Arthur J. Gerber, 37, of Saginaw, killed in a traffic accident near West Branch Thursday night, and John Renaud, 77, found dead in his hunting cabin near Gladwin early today.

William Iva, 28, of Jackson was found dead late Friday near Hulbert in Chippewa county. He had been missing for 48 hours.

Search for Waino Vuolinen of Detroit, reported missing from his camp in the Copper Harbor area in Keweenaw county, was contributed Friday night.

Winfield Steinhoff, 42, of Munising, was wounded critically Friday while deer hunting near his home community. Police said Steinhoff had shot and was cleaning his own deer when another hunter mistook him for a deer and shot him.

Meanwhile, John Hawthorne, 72-year-old Detroit real estate operator, was found safe and unharmed Thursday night after he had been lost since Monday in the Lake Gogebic area. Another elderly hunter, 70-year-old Elmer Stettler of Ann Arbor, emerged from the woods near Boon Lake and told of building a fire to keep warm during 20 hours in which he was lost in a snowstorm.

Rep. Knox Of Soo Gets Support For Speaker Of House

Lansing, Nov. 22 (AP)—Rep. John P. Espie, Eagle Republican and prominent House member, said today he would support Rep. Victor A. Knox, Sault Ste. Marie Republican, for the speakership of the House of Representatives.

Knox and Maurice E. Post, Rockford Republican and chairman of the House State Affairs Committee, are the main contenders for the post left vacant by Howard Nugent, Red Axe Republican, unsuccessful candidate for the nomination for lieutenant governor.

Knox was speaker pro tem in the last session and is a member of the Ways and Means committee of which Espie is chairman.

Sun Has Partial Eclipse This Noon

New York, Nov. 22 (AP)—A partial eclipse of the sun visible in Canada and all but the southwestern corner of the United States will occur tomorrow, and the weatherman said most U. S. residents would have at least a fair chance to see it.

The biggest percentage of eclipse, 78, will be visible in Greenland, Augusta, Me., will have the best view in this country with 64 percent.

The phenomenon will begin at 10:52 a. m. (EST) here, reach its climax at 12:26 p. m., and end at 1:59 p. m.

SOVIETS TEST DIRIGIBLE

Moscow, Nov. 22 (AP)—The Soviets Union's newest dirigible, the "Patriot," a two-engined ship designed for operation by one pilot, is being prepared for its first test flight. The dirigible accommodates 14 persons and the designer is Maj. B. A. Garff. The Soviet's other dirigible is the "Victory."

DRASTIC CUTS ARE ORDERED TO SAVE COAL

LEWIS PREPARES FOR SHOWDOWN LEGAL FIGHT

By The Associated Press

A drastic dimout for 21 states effective Monday, was ordered by the Civilian Production Administration Friday night as the soft coal strike began eating into the country's industrial production.

While the government pressed its legal fight to punish John L. Lewis for the walkout of his 400,000 AFL United Mine Workers, the CPA issued orders, effective at 5 p. m., CST, Monday, curtailing the use of non-essential electrical power in localities deriving electricity from coal.

States affected were Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, West Virginia, Virginia, Wisconsin and the District of Columbia.

No Christmas Lighting

The regulations prohibit the use of electricity for air conditioning refrigeration except to the extent essential for industrial processes or for health and safety; for outdoor display and floodlighting except to the extent necessary for the conduct of outdoor business services; for outdoor and indoor decorative ordamental lighting; for show window or show case lighting and for marquee lighting in excess of 60 watts for each marquee.

Reductions were ordered in street lighting and for unessential outdoor and indoor signs.

The order also restricts use of electricity for any other form of general outdoor or indoor illumination in or about any commercial, industrial or non-residential establishment to 75 per cent of that normally used.

It restricts passenger elevator and escalator service in any building having more than one passenger elevator or escalator to 75 per cent of normal use.

Industries Start Layoffs

The House surplus property committee, meanwhile, in a move obviously prompted by the coal strike, called for a hearing on the possible emergency use of the big inch and the little inch pipe lines to carry natural gas to ease the coal shortage.

Chairman Slaughter (D-Mo.) set a hearing for Monday. He said he was informed the Tennessee Gas and Transmission company could begin pushing Texas gas to the east coast within 30 days after receiving a "go-ahead" signal.

The first stricken layoffs were reported in industries dependent on coal for continued operations and industry spokesmen predicted the number of unemployed would swell into the millions if the dispute were prolonged.

However, ODT Director J. Monroe Johnson announced a planned embargo on rail freight traffic would be postponed "for several days." Existing coal stocks available to railroads, he said, made immediate action unnecessary.

Meanwhile, Congress for a special session of Congress to deal with the coal situation continued on Capital Hill and Rep. Hesterman (R-Mich.) proposed suspension of the Wagner act "until the miners go back to work."

Trains Canceled

Rep. Carlson (R-Kan.), a House leader on tax legislation, said the coal strike "gravely threatens" Republican plans to slash individual income taxes 20 per cent.

In St. Louis, the Majestic Manufacturing Co. stove factory shut.

LEASE SIGNED WITH INDUSTRY

Harnischfeger To Announce Plans Soon

R. B. Mitchell, of the Harnischfeger Corporation, Milwaukee, is spending several days in Escanaba and conferring with local officials regarding the prospects of establishing an industrial plant here.

The company has secured a lease from the City of Escanaba for space in the old Steele-Wallace building, now owned by the city, and is contemplating the establishment of an industrial plant here about March 1. The property is now utilized as a paper warehouse by the Escanaba Paper Company, but will be vacated shortly as the paper company has constructed warehouse facilities on its property at Groos. Considerable remodeling of the building will be necessary.

An announcement from the company's office in Milwaukee is expected in midweek.

C-C Directors Will Meet Tuesday Noon

Miss Alice Kvam, assistant secretary of the Chamber of Commerce, announced yesterday that an important meeting of the board of directors will be held Tuesday noon at the Delta hotel.

The board will review the report of the finance and auditing committee which met last Wednesday, as well as to further plan the expanded program of the chamber for the current year.

Other matters to come before the board will be consideration of a new folder for Escanaba promotional purposes, a program for the membership committee to establish the largest membership the chamber has ever had and to attempt to get other important chairman to have their committee meetings and begin work to obtain their year's objectives of community accomplishments.

Miss Kvam also reported that chamber membership is steadily increasing without solicitation.

Briefly Told

Chickens Missing—Frank Butler, Lake Shore road, reported to local police yesterday that prowlers had stolen several chickens from his place Thursday night.

Must List Expenses—Candidates in the recent election are reminded by the County Clerk Ted Ohlen that they must file expense statements at the clerk's office before the deadline Dec. 5.

Eagles Club Improved—Booths were installed this week in the new bar room of the Escanaba Eagles club, adding to the seating capacity of the cocktail lounge. A dance will be held in the Eagles with a gain of several in the past few weeks.

Report Cards—Reports cards for Escanaba senior and junior high schools will be issued immediately following the Thanksgiving vacation.

Buys Bull—Louis Grzyb, Bark River, has recently purchased the registered Brown Swiss bull Clark of Delta Swiss Farm 78980 from Joseph Steff, Cornell, Michigan according to a report from Fred S. Idtse, Secretary of the Brown Swiss Cattle Breeders' Association, Beloit, Wisconsin.

Cpl. Charles Wood With Air Force In Lechfeld, Germany

Cpl. Charles D. Wood is stationed at Lechfeld, Germany and is with the 305th Bombardment Group. The 305th is one of the veteran groups of the Eighth Air Force. Formerly the Group was stationed at Chelveston, England and moved from there in July 1945 to St. Trond, Belgium. The 305th took part in the growth and development of the Eighth Air Force and shared in all its major campaigns and missions. Of its 337 daylight bombing attacks the highlights are marked by commendations from the 8th Bomber

Command and later by the Ninth Air Force. Two of its members received the Congressional Medal of Honor.

The 305th, as a subordinate command of the United States Air Forces in Europe, is doing its part toward the successful Air Occupation of Germany.

The Lechfeld Army Air Base, once bombed by this group, is one of the largest in Europe and formerly was a Messerschmidt jet research field. Located eighteen miles south of Augsburg, it is in the center of the famous province of Bavaria.

Cpl. Wood is the son of Mr. and Mrs. Charles Elsworth Wood of 525 So. 14th street of this city. His wife is the former Miss Agnes

Chenail of this city. Before entering the service Cpl. Wood graduated from the Escanaba Senior High School in 1944. He enlisted January 20, 1945 and arrived in the ETO on April 29, 1946. Cpl. Wood is attached to the 365th Bomb Squadron and his present duty assignment is air crew.

COAL STRIKE AFFECTS CNW

Trains 121-224 Between Escanaba-Menominee Pulled Off

Temporary discontinuance of eight through trains of the Chicago and North Western Railway Company in compliance with orders of the Office of Defense Transportation due to the coal strike, was announced yesterday.

The changes apply only to coal-burning locomotives and do not affect the West Coast streamliners or the "400" streamliner fleet of trains, all of which are powered by Diesel-electric locomotives, or other trains powered by oil burning locomotives. The changes go into effect at 10:01 a. m., Monday, November 25.

In the Chicago - Milwaukee-Green Bay service, the following changes will be made:

Train 107 leaving Chicago at 4:15 p. m. (except Sunday and holidays) and arriving at Milwaukee at 6:45 p. m. will be discontinued. Train 160 leaving Milwaukee at 3:40 p. m. ANOTHER BIG WIND—A heavy wind tore a portion of the roof off the Clairmont Transfer Line warehouse in North Escanaba early Friday morning. The section, which fell on the car, was

ripped off the opposite side of the building, and in its flight broke off a portion of the chimney. No one was injured.

With The Deer Hunters

Nestor Erickson of Stonington filled his deer hunting license while hunting near his home this week.

Erwin Rengelski of South Bend, Ind., shot an eight-pointer near St. Nicholas this week, but was surprised to find that he had killed a doe, weighing 175 pounds. It is legal to kill antlered does, however. His companions were Julius Oduch, South Bend; Jack Egedy and Harold Church, Van Dyke, Mich.

Onni Usitalo of Rock bagged a six-point buck at 7 o'clock Friday morning in the Huron mountain district, west of Marquette.

Mrs. Perley Way shot an eight point, 200 pound buck near Cornwell Wednesday.

Vernor Seaman, of Cheboygan, father of Nestor Seaman, Fayette, bagged a five point buck at Big Summer Island. It was the 19th consecutive year that Seaman has filled his deer license.

Guerdon Artley of Detroit landed an eight point buck at the Oliver Lund camp. Hunting companions less fortunate were Edward Bothe of Detroit, Leonard and Harold Lund of Kipling and William Ekmeyer, Oscar Sequin, and Oliver Lund of Escanaba.

Abe Houle, Art Dupie, Roger Hanley and Tom Lynaugh shot four bucks while hunting at the

Hanley camp near McFarland during the past week.

Rudy Peterson, 426 South 12th, has returned from Bay de Nocquet camp 31, where he shot a 140-pound buck. He was accompanied by Richard Jutten.

Kenneth Lewis was successful in filling his license at his camp at West Branch Lake in Alger county Saturday morning. He killed a 12-point buck weighing around 200 pounds.

Fur Farming Grows

THE development of the mink industry in Delta county has come about with little fanfare but mink breeding, nevertheless, constitutes a principal source of agricultural income in the county, amounting to approximately a half million dollars this season alone. Moreover, it is an industry that is growing in tremendous strides.

The money brought into the county through the mink industry is new money, paid by the fur dealers of the metropolitan areas. The money circulates freely in the area to fishermen, who provide feed for mink; to hardwaremen, for wire and farm equipment; to grocers, insurance men, and others throughout the retail area.

The rapid growth of the mink industry not only in Delta county but throughout the Upper Peninsula raises the possibility of conducting annual fur shows here in Escanaba. Such shows would serve the dual purpose of acquainting the local area with the quality of furs produced in the Upper Peninsula and the importance of the industry, and providing a convenient market for the sale of local furs.

The fox fur industry has been a part of the Upper Peninsula for many years and it is still a substantial business, but in recent years the development of mink ranching has taken over the spotlight.

The northern climate has proved to be ideal for the breeding and pelting of fur animals and some of the finest ranch bred mink pelts are now being produced in this area.

Dining On Wheels

A RAILROAD magazine says that there have been two significant changes in dining car service lately—more meat on the menus, and the return of pre-war courtesy.

Another change noticed by some people is that prices, radically advanced during the war, have had a further hike of 15 to 20 per cent since federal price control was removed. However, it isn't likely that diner prices will ever get up to a point where they will make a profit for the railroad companies. Year in and year out the companies have taken a loss of around 30 cents on every meal they have served on wheels. It costs plenty to haul and operate any dining car, and there is no question of making money from their service.

Dining car breakfasts of ham or bacon and eggs, with a few trimmings, cost around \$1.25 today. Luncheon prices are around \$1.50 to \$1.65, and evening dinners on the square meal order set the customer back in the neighborhood of two dollars, with something more than that for a real good steak.

The first dining car was operated on the old Pennsylvania Lines, between Philadelphia and Baltimore. It served oyster stews, crullers and coffee prepared in the terminal cities. A few years later, George M. Pullman, then getting nicely under way in the sleeping car industry, built and operated dining cars with oriental carpets, elaborate chandeliers, silk and velvet hangings, and lace curtains.

Back in the 1880's, Pullman noon and evening dinners consisted of blue point oysters on the half shell; soup, fish, choice of leg of mutton and sauce, turkey with chestnut dressing and cranberry sauce, or roast ribs of beef with Yorkshire pudding; entrees of sweetbread croquettes with French peas, cutlets of lobster, or coconut fritters with sweet sauce; game, canvasback duck, partridge, or saddle of venison; followed by desserts which included assorted pies, cakes, pudding, macaroons, nuts, ice cream and chocolate.

There were side dishes of lettuce, olives and celery, and lobster salad, and a choice of such vegetables as spinach, baked or poached eggs, mushrooms, baked or mashed potatoes, and peas. All this, with four or five kinds of bread and rolls — and not forgetting the lace curtains—cost you 75 cents. Yes, friends, those were the happy days.

Business should go all out for moderate pricing and the best possible volume, says this observer of the American scene. This is no time for extra large profits. To hold out for them now will only result in too large stocks when the declines come, and they may not be far away.

It's no time for big inventories, either. The wise guys are keeping their high-priced stocks right down to a minimum, and working more than ever for turnover. They don't intend to be caught with costly stocks of merchandise that will have to be sold at a loss.

Excessive wage demands and strikes by labor now are doubly dangerous. They

will lead only to higher costs and perhaps hasten the day of another big smash. The thing to do, right now of all times, is for employer and employer to get together around a friendly table and thresh out their differences in an understanding spirit. It is being done every day in many parts of the country.

The public should not rush out for scarce merchandise, and thus drive up prices. When the consumer does that, he defeats himself and really does the dealer a disservice. If you feel that some article of food or other merchandise is priced beyond all reason, don't be afraid to tell the seller that you can't afford it, and that you are going to wait until prices drop to a more reasonable level. If enough of us are not afraid to put it right up to the dealer, he can pass along the word to the jobber and the manufacturer much more confidently and authoritatively.

Furthermore, if the dealer finds that he cannot readily sell the lines complained of, he will be doubly careful about buying them, and thus he will not be taking so heavy losses later, when the inevitable declines in prices arrive. In short, this bank economist writer, who has no doubt been through the mill many times, urges all hands to keep their shirts on and use horse sense in buying and stocking goods.

16 Million Army?

THE statement of Gen. Jacob Devers, in a plea for universal military training, that an army of 12 to 16 million men would be needed in the event of World War III, seems to be a rather reckless statement that is typical of the military hierarchy.

It is silly to hazard even a guess now of the size of any army that we may need in the event of a future war. We would, naturally, have to know whom we were going to fight and where and who our Allies were, if any. We don't know the answer to that, and neither does General Devers.

Let's argue this universal military training issue on purely rational, sensible grounds and cut out the hocus that serves only to confuse the issue.

TEACHERS' SALARIES (Grand Rapids Press)

The Michigan Education association, as well as individual groups of teachers, has announced that as a result of the adoption of the sales tax amendment it will seek higher salaries for Michigan teachers. While the association may be a little precipitate in opening its campaign, it must be admitted that one of the avowed objectives of the amendment was to provide additional funds for teaching salaries.

However, before any school district determines to what extent it is going to supplement present sums set aside for teaching expenses it might be well to see exactly how much it is going to get from the state. Nobody yet knows on what basis the legislature will write the formula for distribution of general school aid and until that is known it would be wise to proceed cautiously.

It should be stressed, also, that the schools should plan their expenditures on a somewhat flexible basis; in other words, whatever they do now should permit readjustments next year. This is necessary particularly because there may have to be some millage adjustments between schools and local units in preparing tax allocation meets, towns and cities will have no definite indication of what they will receive in the way of state revenues in 1947-48; any marked downward revision in state aid to local units probably would necessitate equalizing the loss between them and the schools in allocating tax millage.

The best course to be followed at this time is for the schools to estimate what their minimum increases will be, and on that basis to determine what salary increases are permissible. And certainly it should be the primary objective not only of the teachers but of school boards also to work for more equitable teaching salaries. None needs to be told at this late date that present teaching salaries in many districts are too low either to permit the schools to retain competent instructors or to encourage a sufficient number of persons to turn to teaching as a profession. Decent school salaries must be viewed as a first step in improving our educational system and the majority of Michigan voters already have approved them.

READERS WANT TO KNOW

Los Angeles: Recently one hears the word "denture," but I do not find it in late dictionaries. What is the origin?—R. S.

Answer: All such words as dentist, dentifrice, denture, are from the French word dent, "tooth," pronounced: dah(n)—(n) indicates the French nasal sound. In dentistry, denture (sometimes dentures) designates a set of false teeth.

Oklahoma City: Why are blue jeans sometimes called "levis"? And does "levis" rhyme with "heavies"?—J. W.

Answer: The proper spelling is "Levi's," pronounced: LEE-vize. The name is patented, and designates blue jeans, overalls, etc., made by Levi Strauss and Co., San Francisco.

St. Louis: Which is the best plural to use, "monies" or "monies"?—M. R. B.

Answer: "Monies" is listed by some dictionaries as second choice, but it is irregular. So far as I know there are only two -oney words in English which rhyme with "funny"—honey and money. The plurals are honeys and moneys, the latter is the only spelling in the U. S. Style Manual.

Concord: Where do we get the pesky word "veto"?—J. H. S.

Answer: Veto is Latin for "I forbid."

BY MARQUIS CHILDS

Washington—The other day the London Daily Express printed the report that Great Britain had asked the United States for atomic bombs. It was the first time this had come from a British source.

Behind this fact is an extraordinary story, which is told here for the first time.

It is told because it reveals something of the tensions surrounding the issue of atomic control. So vast is the power and so shattering are its implications that the slightest word about it is registered, just as a distant earth tremor is picked up on the sensitive instruments of the seismologists.

When the rumor was first printed that the U. S. had given atomic bombs to England, it caused a profound shock within the American atomic-energy delegation to the United Nations in New York. Bernard M. Baruch, head of the delegation, had given his solemn pledge to all the delegates that each nation would be treated exactly alike and none shown special favors.

—GROMYKO WAS SKEPTICAL—

Baruch's first step was to get in touch with the highest authority in Washington. He was satisfied, after talking with President Truman and Secretary of War Robert P. Patterson, that there was no truth whatsoever in the report.

His next step was to go at once to Adrei A. Gromyko, head of the Russian atomic-energy delegation. Baruch asked Gromyko to leave a meeting so that he could give him his solemn assurance that the rumor was false.

At first, Gromyko was skeptical. It was apparent that the Russian suspicions, always on the alert, had been stirred by the false report. But between Gromyko and Baruch—so dissimilar in point of view, in background, in every respect—a friendly relation has grown up. Gromyko was finally inclined to accept the assurances of his friend and co-worker.

It is no secret, as the Daily Express has now confirmed, that Britain sought to obtain a stockpile of bombs. British representatives argued that they were entitled to special treatment because of the contribution that the empire made to the creation of the bomb.

Canada is the chief source of uranium. India is the principal source of thorium, another fissionable material. British scientists worked actively and intensively alongside American scientists in the various phases of the process that led up to the revolution over Hiroshima.

But the U. S. said no to Britain's request for bombs, insisting that all nations should be treated with complete impartiality. The answer was also no to a request for technological information which is still an American secret.

While it may have been no more than a coincidence, not long afterward the supply of thorium to this country from India was shut off. Thorium comes from the state of Travancore in southern India. The shipments were shut off on the order of the Maharajah of Travancore, Sir Bala Rama Varma.

The British have said that, since the Maharajah is an independent ruler, they cannot order him to resume the thorium shipments. Travancore is one of the most modern of the Indian states and the Maharajah is regarded as a progressive who believes in encouraging industrialization. His reason for refusing to send out more thorium is extremely interesting.

—COULD TRANSFORM EARTH—

What the Maharajah says, in effect, is that his own country should be allowed to build plants for refining the thorium and even for creating atomic energy from it. In other words, he does not want to be merely a supplier of the precious raw material. He hopes that his own people would benefit by the kind of industrialization that is coming in the atomic era.

Regardless of the merits of the Maharajah's argument, in relation to the present industrial development of Travancore, it serves to throw into the sharpest focus one of the most dramatic facts about the new power. Everywhere in the world the realization is slowly dawning that here is a force which eventually can transform the earth. Therefore, it is more plain than ever before that no one nation can keep a monopoly on the knowledge and the process of atomic fission.

It is more than ever plain, too, that a danger is inherent in such a monopoly. Inevitably it produces intrigues, conspiracies and cabals. Inevitably it will lead to the kind of alliance which will mean war.

That is the awful weight pressing on the delegates in New York responsible for trying to work out a system of international control. They know that they cannot ignore a single avenue which might lead to agreement. That is the terrible urgency they labor under as the days of grace slip by.

Los Angeles: What is the pronunciation of Uriah the Hittite?—T. M.

Answer: Uriah is: yoo-RY-uh. In Hittite the first "i" is short as in "hit," the second is long as in "bite." Say: HIT-ite.

L. J. P., of Charleston, W. Va., finds a loony logic in a UP news item: "Road Supervisor Ernest Curtis discovered a rock which 'grows' hard while blasting out a new roadbed." But J. M., of Los Angeles, tops it with this headline in a local paper: "Story of Battle Over Lady on Bus With Bare Midriff." That I'd have to see.

Do French words on menus confuse you? Do you ever have to order blindly by stabbing your finger at some queer combination of French words, and say, "Uh, I'll take an order of this—uh—these"? Be of good cheer! Send a stamped, self-addressed envelope to Frank Colby, in care of this paper. Ask for FRENCH MENU pamphlet.

RETALIATION—Efforts toward greater understanding between the peoples of Russia and of the United States are showing some signs of success, although this opinion may be contradicted by those who look upon the dark side always.

The charges and counter charges of subjugation of altairian is m and power politics inevitably lead to better understanding. In the very nature of argument some light must be shed upon the question under debate, although feelings are hurt and tempers ruffled. It is most important that such talks continue, for in them rests the hope of amicable relationship in the future. Only when conversation is stopped and nations withdraw into silence is the future dark and war becomes the next consideration.

Many Americans may have recently been shocked when a Russian writer who had spent some time in this country charged that the United States permits many of its citizens to be denied the right to vote. This was in retaliation for American attacks against Soviet pressure to influence elections in satellite countries.

IT IS TRUE—The United States has taken a position before the United Nations and the world that this country represents a democratic system of freedom for the individual, and fair play for every man regardless of race, class, creed or color.

To a degree perhaps not yet attained anywhere in the world this is true.

But it is to a degree—for there does not exist discrimination against the non-whites, and there is all too evident intolerance against the Jew, although the Jew is neither of a different race nor of a different color. The banning of the Japanese from this country by law, although other races are admitted under immigration quotas, is obviously discriminatory.

And the Russians must find contradiction in the current knock down and drag-out fight between our government and John L. Lewis' soft coal miners. Lewis was encouraged to rise to power over the "capitalistic" mine owners—certainly a class "war." Now his power has grown so great he defies the government itself, he must be punished—and is the symbol of thousands of miners who believe they are being discriminated against.

WORST OFFENSE—All of these things make for humiliation, because they provide ammunition for those who say that our actions belie our words. In pointing out our weaknesses, our contradictions and prejudices, the Russians are doing us a favor. We have too complacently accepted our virtues and overlooked our vices. And if we feel privileged to attack the Soviet's communistic system, there is no sound reason why they should not poke their fingers through the holes in our own armor.

Worst offense of which we as Americans are guilty is the acceptance of conditions in certain southern states which deny the Negro his constitutional rights as a free man. Until that situation is corrected, this country stands before the world as a fine-intentioned hypocrite—but a hypocrite nonetheless.

"PROBING" BILBO—Currently a straw in the wind is the United States senate's campaign committee investigation of complaints that Senator Bilbo, Mississippi Democrat, "tried" to prevent Negroes from voting in last summer's primary. It was Bilbo who defeated four major opponents to win renomination to a third term, and nomination is tantamount to election in the "Deep South."

Complaints against Bilbo are that he and his political henchmen used everything, including force, to keep the Negroes from the polls. Warnings were sent out in written form, threatening the Negroes with dire punishment if they voted, and there were speeches made in which the Negroes were publicly warned to stay away from the polls if they wanted to stay healthy.

And this occurred, mind you, in 1946, in the United States, a country that for more than 80 years has "guaranteed" the rights of the Negro as a free man.

There is also the situation in the state of Georgia, where Gov. Talmadge was elected on a platform of "white supremacy." He did not receive the largest popular vote, but did carry the largest number of voting units. He received not only the votes of the Negro-haters, but the public support of the Ku Klux Klan, an or-

Q. While in the Pacific, my son contracted scrub typhus. Can you tell me something about it?

A. Scrub typhus is carried by a mite (similar to the Florida red bug or chigger). The disease is accompanied by fevers which run from 103 to 106 degrees for two or three weeks at a time.

Q. Briefly what is the Soldiers' and Sailors' Civil Relief Act?

A. It is a law to protect the civil rights of service personnel, and in some cases their dependents, in such matters as taxes, lawsuits, commercial insurance, repossession of property, evictions and rights in public lands. The protection extends for a limited time after discharge or separation.

Q. In an automobile, or boat, moving with speed, be suddenly stopped or retarded from any cause, why are the passengers, or the baggage carried, precipitated from their places in the direction of the motion?

A. Because, by reason of their inertia, the preserve in the motion which they shared in common with that body that transported them, and are not deprived of that motion by the same cause.

Q. What was the Pierian spring?

A. Pieria was associated with the worship of the Nine Muses; hence the Pierian spring is an allusion to the fount of poetic knowledge.

Q. Did the United States long refuse to have diplomatic relations?

A. Soviet Russia.

Q. What is "ostracize"?

A. To exile or eject from a group. The word came from the Athenian custom of writing a man's name on an "ostrakon" or bit of broken pottery. A sufficient number of these in the ballot-box sent him into exile.

Q. What was Cinderella's coach made from?

A. A pumpkin.

TAKE IT KINDLY—Therefore when Russians start throwing a few stones at our glass house in retaliation for those we have tossed, it might be well if we examined some of the things that have been going on—and are still going on—here at home. Perhaps reformation, like charity, should begin at home. There may be little we can do about conditions in Russia, but we could clean up our own house.

The Washington Merry-Go-Round

BY DREW PEARSON

Washington—For some strange reason, Secretary of State Byrnes has become awfully jittery about having a senate committee probe what's going on in Germany. He is putting all sorts of obstacles in the

path of the old Truman committee's investigation of the reported breakdown of American morale in Germany and the secret flirtation of some U. S. business firms with Nazi cartels.

Several members of the old Truman committee, now the Kilgore committee, flew up to New York for a session with Jimmie Byrnes regarding this, but he remained adamant. Behind him sat GOP Leader Senator Vandenberg of Michigan, smoking a cigar, quietly giving Republican support.

Significantly, the senators who interviewed Byrnes were all Republicans: Brewster of Maine, who will soon be the new GOP committee chairman; Ferguson of Michigan, who has usually cooperated with the Democrats; and Knowland of California, who recently defeated Will Rogers. Tom Connally of Texas, an inactive member of the committee since the various peace conferences, was also present. Senator Brewster carried the ball.

"When Claude Pepper gets up on the floor to criticize your policy with Russia, we are the ones who pin back his ears," Brewster told Byrnes, referring to his colleague, the Senator from Florida. "But an investigation of what goes on in Germany is not deserting our nonpartisan foreign policy. After all, it was Harry Truman who sent both Republican and Democrat senators abroad to probe various phases of the Roosevelt administration all during the war."

—BYRNES SAYS NO—

Secretary Byrnes countered by suggesting that Lieut. Gen. Lucius Clay and other officials in Germany could come to the United States and be examined by the committee.

"We've always found it far more efficient to examine people on the ground," countered Senator Ferguson.

Byrnes, however, stuck by his guns. He was absolutely opposed to a senate committee's going to Germany. This caused Senator Knowland to remark:

"I was not particularly interested in the reported sexual aberrations of American troops in Germany or of black market porch-climbing until I found you were so anxious to keep us out. But since there have been several carefully conducted tours of newspapersmen through Germany, I see no reason why U. S. senators should not have the same privilege."

Knowland, whose family operate an Oakland, Calif., newspaper, hinted that he did not think his colleagues of the press had been permitted to see anything in Germany, except what the army wanted them to see.

Finally Brewster brought up one of the most disturbing situations in Germany, the rumor that Secretary of the Navy Forrestal's old banking firm, Dillon, Read, has had its officials working in Germany to arrange tie-ups with Nazi cartels. Before the war, links between I. G. Farben and U. S. companies caused serious damage to American defense.

"As you know," the senator from Maine reminded Byrnes, "The charges are that Dillon, Read was a very great factor in Germany in the 1920's, that General Draper, former vice president of Dillon, Read, is similarly identified, and that the connections and operations are the subject of bitter attack from our left-wing friends."

—NATURAL GAS VS. JOHN L. LEWIS—
It has now been more than a year since this column suggested that the only way to counteract John L. Lewis was to convert our two war-built, government-owned pipelines to natural gas. In the interim not a single move toward conversion has been made.

In the interim also millions of cubic feet of Texas and Louisiana natural gas have gone up in smoke and will never be recovered. Most people don't realize that this is one of our most valuable natural resources. Nevertheless, much of it is either burned up in Texas as waste gas, or allowed to escape. At some Texas oil wells, a constant blaze is kept going, night and day, in order to burn off surplus gas.

Reason for the government's failure to convert the big inch and little inch pipelines to gas is not entirely red tape, nor the secret opposition of John L. Lewis. Vigorously pulling wires to keep the pipelines away from natural gas are the railroads and the coal operators. They are Lewis' secret allies.

Illustrative of this wire-pulling is a natural gas pipeline only ten miles from Washington, D. C., which brings gas from West Virginia. Originally constructed to feed the Nation's Capital, the coal industry and the railroads blocked the entrance of natural gas into Washington. They were bringing in coal which the gas company then converted into expensive artificial gas.

So for ten years West Virginia natural gas flowed to within sight of the Nation's Capital but was never permitted to come into the city. Only during the war was this finally changed. Now the West Virginia pipeline has been tapped, and Washington, at long last, is using cheap natural gas.

NOTE—Charming, naive Stuart Symington, when surplus property administrator, sent a report to congress that the government pipelines could only be used for oil—not natural gas. Now he claims he never saw this report, that somebody signed it for him. Now that Stuart is assistant secretary of war, wonder if orders for the shipment of atomic bombs are signed the same way?

With price ceilings off of all leather, now watch the shoes really pinch!

Ear ye! Ear ye! Right now is about your last chance to get corn-on-the-cob.

DIDN'T OWN DOG

Rock, Mich. Nov. 21, 1946.

Dear Editor:

I would like to call your attention to an article in Wednesday, Nov. 20 Press in which a dog bit a child about the face and that I was the owner of the dog.

I was NOT the owner of this dog.

The dog came to my place about 3 weeks before this happened. Thinking it was some other farmer's cattle dog and that someone probably would come after it, we let the dog stay. He had played with our children and showed no signs of harming them.

At the time he attacked Gary Dagenais I shot him at once to keep the other children from getting hurt.

The Michigan State Police came to my place a few hours later and got the head.

I was not home at the time.

I still don't know whose dog it was or where it came from and cannot be held responsible for anything a stray dog has done.

Gary Dagenais is the son of Mr. and Mrs. Elmer Dagenais, Stephenson avenue, Escanaba.

Signed,
Fred Seger.

Lemmer To Attend Lansing Meeting

John A. Lemmer, superintendent of schools, is one of five Upper Peninsula educators who will go to Lansing next Monday, on invitation of Dr. Eugene B. Elliott, state superintendent of public instruction. The group will discuss school finance problems created by adoption of Proposal No. 2, state constitutional amendment approved by Michigan voters at the Nov. 5 election.

The conference will begin Monday morning at 10 in the Hotel Olds. Other Upper Peninsula superintendents who will attend the conference are Willard M. Whitman, Marquette; E. J. Oas, Bessemer; Foss Elwyn, Sault Ste. Marie; and Arthur N. Erickson, Ironwood.

Missionaries Will Be Guest Speakers At Salvation Army

Brig. and Mrs. E. Brandt, Salvation Army missionaries who have just returned from the Dutch East Indies, will be guest speakers at the Sunday services at the Salvation Army hall. They will speak at the Sunday school service at 10 o'clock, the holiness meeting at 11 o'clock, the Swedish meeting at 2:30 and the evangelistic service at 7:45.

They also will speak at the special service to be held Monday evening at eight o'clock at the Stone Anderson school.

Brig. and Mrs. Brandt served seven years in China and 21 years in the Dutch Indies. They worked in leper colonies in Java and Sumatra and also did educational

and evangelistic work among the head hunters.

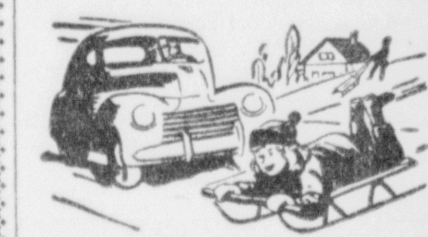

Both were captured by the Japs in the recent war and were war prisoners for several years. Following their release they were hospitalized in Australia.

Do You Know?

A DEAD HORN CAN SPOIL A CHRISTMAS

A horn that doesn't sound can't alert a pedestrian or another driver to impending danger. That split second lost may mean the difference between safety and tragedy. And injury and death are doubly

sorrowful in the traditional season of joy. Keep your horn functioning properly. It may save lives.

A total of 726 persons were killed and 18,830 injured in 59,765 accidents that were reported to the Michigan State Police during the first seven months of this year. Don't let death ride at the wheel with you.

IN THE Old Tradition

This country is rich in traditions which are basically sound, not the least of which is Thanksgiving. The great humane urges of tolerance, personal freedom and individual security characteristic of those who gave us the tradition of Thanksgiving will never be forsaken . . . It is the American Way.

Another tradition of the American Way of Life, and actually as old as the first American Thanksgiving, is Good Beer. It is a part of the home life of most Americans . . . a worthy companion of good food.

Marry In Detroit

At a nuptial high mass at the
St. Mary's Redford church in De-
troit on Nov. 16, Marie Magnee
Brown, daughter of Mrs. Rose and
the late Joseph Magnee, 15343
Forrer Ave., Detroit, became the
bride of Lawrence Henry Lavigne,
son of Mr. and Mrs. Henry La-
vigne of Nahma, with the Rev.
Fr. Rosman officiating. Music for
the mass was sung by the church
choir with the traditional wed-
ding marches.

The bride wore a brown gabar-
dine suit with brown and aqua
accessories and a shoulder corsage
of white baby mums and yellow
rose buds.

The couple were attended by
close friends Mr. and Mrs. Alex
Ferne.

A wedding breakfast was serv-
ed for 21 guests at the Gateway
Tea Room in Detroit. In the eve-
ning a reception for 75 guests was
held. White mums and yellow tea
roses decorated the table which
was centered with a lovely wed-
ding cake topped with the tradi-
tional wedding figurine.

The couple left on a wedding
trip to Chicago where they visited
with Mr. and Mrs. Charles Tobit,
aunt and uncle of the bride and
then to Nahma where they spent
the week with Mr. and Mrs. Henry
Lavigne, the groom's parents.

Mr. Lavigne is employed with
Gemmers in Detroit. His bride
graduated from the St. Mary's
Redford Hospital and also trained
at the St. Joseph's Mercy Hospi-
tal School of Nursing in Detroit.
They will make their home at
14848 Forrer Ave. in Detroit.

glass fabrics—already extensively
used for other than garment pur-

disadvantages. They won't shrink,
stretch, mildew or be attacked by
insects. On the other hand the
fibers slip rather easily, causing
fraying at hems, and the surface

yet discovered a way to deal with
successfully.

Fine Scenery
Arranged For
Music Concert

The scenery for the Christmas
concert, which will be presented
by the instrumental music depart-
ment of the Escanaba city schools,
Dec. 3 and 4, is a night scene de-
picting the Three Wise Men riding
on their camels towards Bethle-
hem.

This is portrayed by a colorful
array of oil paints and florist's foil.
The background consists of hills
of sand painted in blended shades
of tan and brown. The overhang-
ing sky is dotted with shining
stars made of florist's foil. The
larger stars are at the top and
they gradually get smaller as they
near the horizon. This gives the
effect of distance.

In the left hand corner of the
stage are three life-sized Wise
Men riding on their camels. They
are clothed in colorful garments
and the camels are covered with

gay saddle blankets. The miniature
town of Bethlehem is in the right
hand corner of the stage. Over it
is one large star shining down on
the Holy City. The effect of color-
ed lights on this beautiful scenery
is indescribable.

The credit for this beautiful set
goes to Miss Margaret Kranstover.
For well over a month she has
been painting on it daily. Helping
her have been eight members of
the art department of whom spe-
cial mention should go to Marian
Jensen and Billie Daniels.

Young people, who will eventually find opportunity and a livelihood in business, will find one of the most common forms of business organization is the corporation. This ad is addressed to them.

Meet

MR. DELTA COUNTY, INCORPORATED

WORK — WORSHIP — LIVE
PLAY IN DELTA COUNTY

Meet Mr. Delta County, Incorporated . . . and it is Mister, because for the legal purposes of the county it is one person. He assumes financial responsibility (as far as government is concerned) in the name of all the taxpayers and consequently, no one citizen can be held responsible as an individual. Both private and government organizations incorporate for this reason.

If ten people organize a government or a business and if this group were to go into debt for one hundred dollars, each person would be morally required to pay ten dollars. If, however, five of the persons involved had nothing the other five would have to pay twenty dollars a piece and, if, nine had nothing, one person would be required to pay the entire amount. When a group is incorporated, such, however, is not the case, because one imaginary person is solely responsible for the obligations of all persons involved and in this case it is the mythical Mr. Delta County.

There are many corporations operating in Delta County: The Biggest, The Oldest, And, By Any Means of Measurement, The Most Important Corporation is the County Itself!

Every tax paying citizen is a stockholder . . . the county was incorporated in the 1800's . . . and no other corporation is so important to the health, safety, and well being of its people.

The size of a private corporation depends upon its ability to produce and deliver more and better goods at a price that the consumer is able and willing to pay.

The size of a government corporation is dependent upon its ability to deliver more and better protection and service at minimum cost to taxpayers.

An incorporated county would not be necessary if each man could provide his own protection and services that is supplied him.

A business corporation was unnecessary as long as each man could provide his own food, machinery, etc.

Today, however, both government and business corporations are necessary and important factors in the daily lives of all of us and we can be thankful that in this free nation men can band together and incorporate under its laws to achieve happiness and protection.

Each manufacturer in this county is, of course, incorporated . . . and for the same reasons that other business enterprises and the government itself are so organized.

A corporation, government or private, is a way of doing business . . . and as such provides jobs, goods, services . . . that all contribute to help make Delta County a good place to live, work, worship and play.

SNOW FLIES FAST FRIDAY

Storm Here Quickly Covers City With White

Munising—A white blanket of snow covered Munising streets and countryside yesterday and the deer season's still unsuccessful hunters, some of whom are advocates of the belief that "tracking snow" means better hunting, but came more enthusiastic in hopes of getting their buck before the season terminates.

Snow started to fall here fast and furiously early Friday morning and continued intermittently throughout the early afternoon. Albert Oas, weather observer, reported, Mr. Oas estimated that approximately three inches of snow fell during the morning period but did not have an official report at the time.

Winds which were southwest early Thursday night, changed to north-westerly later in the evening, and the storm rapidly matured in this area. It was believed that the wind reached a velocity of 45 miles per hour at one time yesterday. Mr. Oas said, but no official check had as yet been made, he added. Swirling snow caused by a high wind cut visibility down considerably by the early morning, he stated.

Cold temperatures accompanied the snow Friday and the weather here was termed "nasty" by many early risers.

Mrs. McIntyre New Girl Scout Leader

Munising—Mrs. James McIntyre was elected commissioner of the Munising Girl Scout council on Tuesday, succeeding Miss Frieda Schwartz. It has been announced.

Other officers elected were: Mrs. Chester Curtis, assistant commissioner; Mrs. Willard Hildebrand, secretary; Mrs. John Hechtman, treasurer; and Mrs. Charles Koon, registrar.

Election of officers took place during the annual meeting of the scout council held Tuesday night in the city hall. Officers will take office on January 1, it was reported.

Teachers' Club Elects Officers

Munising—Ernie Johnson, mathematics instructor at the Mather high school here, was elected president of the teachers' club at a meeting held Thursday evening at the high school, it has been announced.

Other officers elected were: Miss Helen Robb, secretary, and Miss Delphine Carlson, treasurer. Purpose of the teachers' club is to promote the general and social welfare of the teachers in Munising.

The club, which has been in existence for a number of years past, is open to all teachers of the public schools here, it was reported.

WOODS WORK SLOW HERE

Full Scale Operations Not To Begin Until New Year

Munising—Logging operations in Alger county woods at present are at a low mark and are expected to remain so for at least another two weeks, Walter C. Meyland, State Employment Service manager here, recently announced.

The curtailment in logging is due to several reasons, Meyland said. Fall weather made travel over woods roads difficult forcing operators to hold up until the ground froze and the deer hunting season caused many loggers to take men out of the woods as a safety measure inasmuch as there are a great many hunters in the woods who might jeopardize the lives of woods workers.

Operations in the woods are expected to "get going" soon, but it is anticipated that a general lay-off for the Christmas holidays will hold work up, and as a result, full-time operations won't be realized until shortly after the first of the new year, Meyland stated.

Chemurgists have found in a Russian dandelion a new source of rubber.

FR. SCHAUL TO MENOMINEE

Father Matt LaViolette Assigned To Local Parish

The Rev. Fr. Joseph Schaul, pastor of All Saints' Catholic church, is being transferred to Epiphany Catholic church at Menominee, it was learned yesterday.

Father Schaul will conduct his farewell services here tomorrow. He will leave for Menominee next week, probably Thursday or Friday.

He is to be succeeded by Father Matt LaViolette who is now serving at Flat Rock.

Epiphany church is now served by the Rev. Fr. Sebastian Maier who went from All Saints' to that pastorate.

Father Schaul has served All Saints church for 8½ years and has been highly successful both in a pastoral and administrative capacity. At the time he took charge here the parish was \$18,000 in debt. At the present time that debt has been cleared and there is a cash balance of \$18,000.

Briefly Told

Gets Deer—Erling Erickson, 321 Wisconsin avenue, hung up an 8-point buck while hunting with his son-in-law, Peter Pecore, near Hamilton Lake.

Hunters' Mass—A low mass for the convenience of hunters is to be celebrated in All Saints' Catholic church Sunday morning at 5:45 o'clock.

Confirmation Class—The confirmation class of St. Paul's Lutheran church meets this morning at 9 o'clock in the church parlors.

Gets Buck—James Shandonay got his buck in a hurry yesterday morning. Leaving about 10 o'clock and heading for Peterson Lake on the Stonington Peninsula, Shandonay was back in Gladstone by noon with a 10-point deer weighing an estimated 150 pounds. It was the first deer he has killed.

ORC Election—Annual election of officers will be conducted by the Order of Railway Conductors at a meeting Sunday morning at 9:30 o'clock in the Eagles hall.

Fill Licenses—Three hunters have filled their licenses at the Sarasin-King camp on the Stonington Peninsula. They are Earl Sarasin who got a spike the first day, and Phil Richel and Bernard Sarasin who got a 6-pointer and 8-pointer respectively on Sunday.

METERS BRING MONEY
Iron Mountain—Averaging about \$1,300 a month since they were installed last April, income from the 331 parking-meters in Iron Mountain totalled \$8,492.28 through Nov. 15, Elmer Hicks, chairman of the city's finance committee, reported this morning.

If the average is maintained through the fiscal year—although there may be some falling-off in the winter months—the income would exceed \$15,000.

One man—Anthony Oliva—is employed, almost full time, in the maintenance and repair of parking-meters. Maintenance costs for the year, including time and replacement parts, is estimated at about \$3,500, which—if the anticipated income of \$15,000 holds up—would return a net of some \$12,000 on the meters each year, under the current plan.

Weather Report For Week Given

Munising—High and low temperatures for Munising last week, November 14 to November 20, as reported by Albert Oas, local weather observer, were 53 degrees recorded on November 16 and 16 degrees recorded on November 18. Mean temperature for the period was 36.71 degrees with 0.17 inches precipitation in the form of snow. 0.16 precipitation fell on November 16 and 0.01 was recorded November 18.

The report is as follows:

	High	Low
Nov. 14	47	21
Nov. 15	52	28
Nov. 16	53	31
Nov. 17	32	18
Nov. 18	42	16

GLADSTONE

Seal Wrapped About Horns Costs Hunter \$25.00 And His Buck

Charged with improperly tagging his buck, Lawrence Girard, Escanaba, pleaded guilty upon arraignment before Justice of Peace O. C. Estenson and was fined \$25 and costs of \$9.50 yesterday morning.

Girard explained that he had dropped the seal in water which froze and prevented his locking the seal after killing the deer, so that he wrapped it about the antlers awaiting return to camp and then forgot about it.

Conservation Officers Allan Tweedy, John Rossi, Robert Bezi and Ernest Rushford of Rapid River found the improperly tagged deer.

Barish-Guindon
Beverly Barish, daughter of Mrs. J. N. Raiche, city, and Hector J. Guindon, son of Mr. and Mrs. Onesime Guindon, Cornell, were united in marriage on Saturday, Nov. 9 at Escanaba.

Attending the couple were Mr. and Mrs. Henry Couillard, city, brother-in-law and sister of the groom.

Mr. and Mrs. Guindon are residing in Gladstone.

Bridal Shower
Miss Emily Valencia was the guest of honor at a bridal shower held at the Kipling hall Tuesday night. Ninety guests were present.

Games furnished the main diversion of the evening. In 500, Mrs. Walter Vandeweghe was high and Mrs. Elizabeth Sinclair low. In 500 rummy, Mrs. Louis Bureau had high score and Mrs. William Duchenev low.

Other games were played and scores totaled up, with prizes going to Mrs. Eldon Miller, high and Mrs. Marie Stenmark, low.

A tasty lunch was served at the close of the evening.

The Misses Mary Valencia and Martha Wepsola were in charge of the party, and assisting them were Mrs. Hugo Johnson, Mrs. Matt Valencia and Mrs. Ray Tackman.

Miss Valencia received many beautiful and useful gifts. She will become the bride of Norman Cole, son of Mr. and Mrs. George Cole, on Nov. 30.

Marquette Navy Veteran Skids Into County Vehicle

Two persons were slightly injured when their auto struck a Delta county snow plow about five miles this side of Trenary about 9 o'clock yesterday morning.

Alexander Bordeau Jr., of Marquette was the driver of the auto. Bordeau is a navy veteran home on leave. Driver of the truck was Lazore J. Potvin Jr., of Rapid River. He had stopped to inspect his equipment at the time.

The highway was slippery with ice at this point and the auto skidded into the rear end of the truck.

Bordeau received an injured ankle which was believed to be fractured. Audrey Longline, a passenger, sustained injury to the right knee, and Katherine Loonsfoot was shaken up.

State Police from the Gladstone post investigated the accident.

111 Cedar StreetBAND CONCERT
IS SUCCESSPianist Superb; Student
Conductor "Swings"
Old Number

Despite the rain and cold weather of Thursday evening, about 500 Manistique adults and students attended the first high school band concert of the season held at the school auditorium.

Highlighting the evening's entertainment were two "specials" on the program. The first to catch the audience's interest was Miss Nadine Westin's almost flawless piano solo, "Polonaise" by Chopin. She was called back to play an encore number, "The Glow Worm." Ray Norberg, taking the baton for the student conductor's number, put a chuckle through the audience as the 50 piece band, playing Rimski-Korsakov's "Song of India" started "swinging" the famous song. Norberg, Joseph Giovannini, conductor, pointed out to the audience, is the school's basketball band director, a job which generally goes unnoticed. He also leads a local dance band.

Among other outstanding performances Thursday evening was the tuba solo by Dan Giovannini who handled a difficult song with a difficult instrument in a near "professional" manner. It should not go without mentioning that something new was tried during the program, when the band was accompanied by Nadine Westin on the piano and the number, "Monastery at Sunset" was played with success.

It was definitely proven a marching band with its precise renditions of such songs as Kleffman's "Marching Band," Douglas's "Under Escort March," and Iron's "Yam March."

Eben News

Eben, Mich.—A Juke Box benefit party will be held at the Eben high school at Eben on Wednesday evening, Nov. 26, beginning at eight o'clock. There will be games, bingo, dancing and fun for all. The proceeds will go to pay for a Wurlitzer, which the school purchased recently.

Mr. and Mrs. Tauno Pantti, of Rumely, are the parents of a baby boy born November 17, at St. Luke's hospital in Marquette. This is the first child in the family. Mrs. Pantti was formerly Miss Olga Seppi, of Lauds Spur.

Mr. and Mrs. Frank Leppanen and daughter, Hazel have gone to Chicago where they will attend the wedding of Miss Angeline Crowdzinski of Chicago, to Dr. Leonard Paajunen, son of Mrs. Frank Leppanen. Miss Crowdzinski is the daughter of Mr. and Mrs. James Crowdzinski, of Weyerhaeuser, Wis. Dr. Paajunen is a former teacher in the Rock River township schools, and is very well known here. His brother, Boris, was a former principal in the Eben high school.

A wedding dance will be held Saturday night at the Unity hall in honor of Miss Nadine Menzies.

CHANGE IN C-C
BY-LAWS ASKEDMethod Of Election Of
Officers May Be
Revised

The manner in which election of officers is held in the local Chamber of Commerce organization is to be put to a yes or no vote of local Chamber members, it was announced yesterday by Leonard Mulhaupt, secretary.

The proposal to change the by-laws will be mailed to each member of the local Chamber of Commerce, with a revision of that portion of the bi-laws pertaining to election of officers enclosed and a request for the member to vote yes or no on its adoption.

Decision to make a revision of the bi-laws was made at a meeting of the board of directors of the Manistique Chamber of Commerce, held this week, after considerable comment on the present procedure in election of officers was heard.

The new bi-laws will undoubtedly be in effect by the time of the next election of officers, which will be sometime after the first of the year, Mr. Mulhaupt said.

of Munising and Leo P. Paananen, of Chatham. The party will start at nine o'clock.

Word has been received that Miss Cecelia Trotter, daughter of Mr. and Mrs. William A. Trotter, of Marinette, Wis. will become the bride of Eugene A. Groleau, son of Mr. and Mrs. Michael Groleau, of Menominee, at eight o'clock high mass at St. Joseph's church in Marinette, Wis. on Saturday, Nov. 30. There will be a reception from five to nine p. m. in the Eagles' hall in Marinette, Wis.

Mr. Groleau is well-known here, having lived here most of his life. He graduated from Eben high school.

OFFER SITE
FOR HOSPITALWalter Linderoths Will
Donate Six Lots
In City

The Schoolcraft County Hospital committee has received from Mr. and Mrs. Walter Linderoth of Manistique the offer of a tract of land at the eastern city limits near Lake Michigan for the site of the proposed new hospital, it has been announced.

Mr. A. J. Cayia, chairman of the committee, received the following letter from the Linderoths, offering the land:

"Mr. A. J. Cayia, chairman,

"Schoolcraft County Memorial Hospital Committee,

"Manistique, Mich.

"Dear Sir:

"In furtherance of the Schoolcraft County Memorial Hospital project, we hereby offer the committee six lots approximately one hundred thirty by three hundred feet, located on the north side of Garden avenue between Range street and U. S. Highway Number 2 in the city of Manistique if this committee sees fit to accept this parcel of land for use as the hospital site.

"We will be glad to deed this parcel of land to the governing hospital body free and clear.

"Respectfully,

"Walter P. Linderoth,

"Leona M. Linderoth."

The Schoolcraft county board of supervisors has offered to donate a site at the fairgrounds for the proposed hospital. No definite action regarding the hospital's location has yet been taken by the committee. The matter of the new site offered will be taken up at the next meeting of the committee, Mr. Cayia said.

Social

Mission Circle

A large number of members and friends of the Mission Circle attended the regular meeting which was held on Thursday evening at the home of Mrs. Carl Sommerwald.

During the business meeting plans were made for a fancy work sale to be held in the church parlors on Tuesday, December 3. The members also decided at this meeting to hold their Christmas party in connection with the annual meeting on Thursday, December 12.

The following program was enjoyed:

Devotionals, Mrs. Otto Sandstrom.

Vocal duet, Ruth Johnson and Ruth Sandberg.

Talk, Rev. Harold Martinson.

A delicious lunch was served at the close of the evening. Mrs. Oscar Anderson was the assisting hostess.

Guests at this meeting included Ruth Johnson, Ruth Sandberg, Mrs. Alfred Pallin, Mrs. Oscar Nelson, Mrs. Arthur Curran and Mrs. Andrew Maitland.

Gillis Of Gladstone Selected On All-U.P. Football Team

GRIDIRON STARS PICKED IN POLL

Menominee Has Two On First Team; Eskymos Two On Second

Iron Mountain, Mich., Nov. 23.—Stealing the thunder from the ball carriers who usually rate the lion's share of touchdown and headline glory, Don "Pidge" Ladwig, Iron Mountain center and veteran of 18 months of Navy service, earned the rare distinction of being the outstanding player on the U. P. Sports Writers' association in 1946 all-Upper Peninsula high school football team announced today.

A poll of 103 coaches, officials and writers were honored the following on the first team:

End—Jack Gregory, Menominee.

Tackle—Tony Petroff, Stambaugh.

Guard—Carl Campbell, Soo.

Center—Don Ladwig, Iron Mountain.

Guard—Jim Tourville, Houghton.

Tackle—Robert DeClark, Norway.

End—Ray Goethe, Ishpeming.

Back—Mike Doyle, Menominee.

Back—Frank Kopsenski, Iron River.

Back—Joe Gregory, Ironwood.

Back—Clifford Gillis, Gladstone.

In earning the all-U. P. center berth for the second time, Ladwig the tower of strength in Iron Mountain's defense, polled more than twice as many votes as the highest total of the remaining 62 players named on the first three teams and honorable mention list.

Ladwig was selected on the honor team in 1944 and shortly after answered the call of his country, resuming classes this fall after 18 months of service. He became too old for interscholastic competition three hours after the final game of the season on Nov. 2.

Gillis, ace of undefeated Gladstone, and Petroff, burly Stambaugh tackle, are the only repeaters. Gillis made the team last year as an end. Petroff earned a tackle post, the same berth he holds this year. The Stambaugh star was second to Ladwig in total votes.

Menominee, considered by some as the strongest team in the peninsula, has the distinction of being the only team with two men on the first team, placing Gregory, crack end, and Doyle, speed merchant and sparkplug of the backfield.

The complete selections are published on this page.

Stephenson Winner Over Hermansville

An edge on height helped Stephenson score a 40 to 32 victory over Hermansville in a high school basketball game last night. Hermansville got off to a slow start in the contest, but showed improvement over the previous week. Twelve missed tries for free throws also contributed to their defeat, as Stephenson kept up a steady scoring barrage in all four periods.

Hermansville will play again Wednesday, meeting Bark River-Harris at Bark River.

The box score for last night:

Hermansville (32)	FG	FT	PF
Koehn	6	4	5
Pierpont	0	4	5
Fochesato	1	2	2
Farley	0	0	1
Furlik	2	3	5

CADETS TO END SEASON NOV. 30

No Bowl Hullabaloo For Army After Navy Game

BY SID FEDER

West Point, N. Y., Nov. 22 (AP)—Army's mighty football machine, unbeaten terror of the nation's gridirons for three years, will definitely call it a career with the Navy game next week—with no post-season hoopla or bowl game hullabaloo.

That was made definite today with an announcement from the Military Academy superintendent, Major General Maxwell D. Taylor, who had been willing to let the careening Cadets play in the Rose Bowl until the Pacific Coast conference and the Midwest's Big Nine closed the door with their private deal early this week.

The General thanked all hands for the invitations which have poured in the past few days—among them one from the Sugar Bowl and another from Los Angeles for a re-play of the recent scoreless tie with Notre Dame—and turned all of them down.

"The superintendent announces today," he explained, "that the Army football season will end and the squad disband following the Navy game on November 30 in Philadelphia.

PUBLIC HOUSING CALLED FAILURE

American Legion Calls For Abolition Of Federal Agency

Indianapolis, Nov. 22 (P)—The American Legion national executive committee late today called for abolition of the federal public housing agency and the office of housing expediter.

By a unanimous voice vote the executive group adopted these two recommendations of the special seven-member committee which studied the veterans' housing problem.

Richard C. Cadwallader of Baton Rouge, La., chairman of the housing study committee, told the executive committee that the recommendation for abolishing the office of expediter "is not aimed at Wilson Wyatt personally."

The executive group put its stamp of approval on another recommendation of the committee that an emergency housing board be created by the president. The recommendation was that the board be made up of seven veterans of World War II and "coordinate and pursue to a speedy conclusion the lagging and now demoralized veterans' housing program."

The executive committee further approved a resolution calling for congressional authorization to the FHA to guarantee 100 per cent of loans on homes for veterans for a period of 40 years if the loans did not exceed \$6,500. Congress was asked to authorize FHA to guarantee up to 100 per cent of the cost of new "multiple-renting housing projects containing not less than eight rental units" and costing not more than \$500,000.

Flying-Z Mixes With Powerful T At East Lansing

East Lansing, Nov. 22 (P)—Cold weather and a possibly snow covered field were predicted for Saturday's clash here between Michigan State college and University of Maryland football teams.

The battle shapes up as a collision between M. S. C.'s "Flying Z" formation and the powerful "T" attack of Clark Shaugnessy's terrapins, both teams stressing offense. About 19,000 fans are expected to be on hand.

State, with three victories in eight games, will be seeking to extend a winning streak which started in last week's 20-0 triumph over Marquette. The Marylanders trimmed Washington Lee last Saturday, 24-7.

Coach Charley Bachman was expected to have his star halfback, Russ Reader, in shape for at least substitute action although fullback Steve Sieradzki will still be out with a rib injury. The State line will still be lacking three first stringers.

Belloise Too Good For Christoforidis

Detroit, Nov. 22 (P)—Steve Belloise, New York middleweight, scored a technical knockout over Anton Christoforidis, Geneva, Ohio, midway in the tenth and final round of their fight at Olympia tonight.

The 159-pound Belloise spent the first nine rounds getting the range and finally opened up with his heavy artillery in the final round. The Ohio fighter absorbed considerable body punishment before he finally went down for the only knockdown of the fight.

Noting that he was practically out, Referee Clarence Rosen stepped in and stopped the fight. The Ohioan weighed 160.

A slim crowd of 2,611 fans paid a gross gate of \$7,397.10.

Bobby Richardson, 153, Cleveland, floored Cliff Beckett, 158, of Sudbury, Ont., six times before he put him down for keeps in the fourth round of a scheduled six rounder.

Harry Marshall, 140, of Windsor, Ont., defeated John Vardy, 138, of Detroit in a four round preliminary.

Property Tax Seen As Cure For State Financial Problems

Lansing, Nov. 22 (P)—A three-mill general property tax was proposed by Rep. John P. Espie, Eagle Republican and chairman of the House ways and means committee, today as a possible solution to the state's financial problem resulting from passage of the sales tax diversion amendment.

Espe said he would prefer a property tax or an income or payroll tax to a further increase in the state sales tax.

There has been no general property tax since 1933 when the sales tax was enacted to relieve the state's critical financial position.

Espe said he was opposed to any sales tax increase because "you'd have to increase it two cents for the state to get one cent for its own use." Any sales tax increase, he said, would mean additional return to the schools and cities under the amendment.

WHEAT AT NEW HIGH

Chicago, Nov. 22 (P)—A top of \$2.18 a bushel was established by the January wheat contract on the Chicago Board of Trade today, making the third consecutive session in which wheat has advanced to a new 26 year high. Late selling forced the closing price down to \$2.16.

Wheat closed 1-4 lower to 2 cents higher than yesterday, corn was 7-8 to 1 3-8 cents higher and oats 7-8 to 2 cents higher.

KIWANIS GOVERNOR—Earl M. Wanecek, Milwaukee, recently elected district governor of Kiwanis International, will attend club officers training school to be held at Marquette Sunday.

Murray Reelected For Seventh Year As CIO President

BY JAMES P. HACKETT
Atlantic City, N. J., Nov. 22 (P)—Phillip Murray—reelected by acclamation to his seventh year as president—brought to a close today the eighth CIO convention which saw any factional disputes kept far in the background.

Noteworthy at the closing session was the ascendancy of the United Auto Workers in CIO councils.

Their 39-year-old president, Walter Reuther, and their vice-president, R. J. Thomas, both were named CIO vice-presidents. Their secretary-treasurer, George Addes, was elected to the executive board.

Only reference to the CIO's plan to ask for substantial wage increases this winter came from Murray in his speech of acceptance of the presidency.

James Carey was reelected by acclamation as CIO secretary-treasurer.

Fraulein In U. S. Uniform 10 Months Is Sent To Prison

Frankfurt, Germany, Nov. 22 (P)—A pretty German girl who donned a United States uniform and lived "off the Army" for 10 months has been sentenced to 10 years in a penitentiary, Army headquarters announced tonight.

The girl, Ingeborg Peterson, 22, posed as an intelligence agent and once arrested two innocent Germans to give credence to her activities.

When arrested, the announcement continued, "her wardrobe included half a dozen new pairs of American nylon stockings, two dresses from fashionable New York stores, American jewelry and numerous expensive souvenirs given her by various American friends."

Miss Peterson was charged with posing as a United States Army intelligence agent, illegally wearing a U. S. Army uniform, wrongfully receiving food and lodging from American authorities while posing as a war department employee, possession of false papers, making false statements, and illegal possession of United States script money.

Sales Tax Revenue Higher This Year

Lansing, Nov. 22 (P)—General fund revenues collected during October totaled \$23,691,213, an increase of \$5,552,572 over October, 1945, collections, Auditor General John D. Morrison reported today.

Morrison said that during the first four months of the present fiscal year, general fund revenue was 26 per cent over the same period a year ago, while expenditures increased 18.8 per cent during the period.

He said the principal factor contributing to this increase was the rise in sales and use tax collections which increased 48 per cent, to \$51,324,821, compared with \$34,483,996 last year.

Gale Drives Ships To Shelter At Soo

Sault Ste. Marie, Ont., Nov. 22 (P)—A 60-mile-an-hour gale early today drove 79 lake vessels in the lakehead area to shelter, United States Coast Guard officials said.

Fifty-eight ships were forced to anchor between the Sault and Whitefish Bay on Lake Superior, while 28 took refuge in the Saint Mary's River and at canal piers near the city.

DRASTIC CUTS ARE ORDERED TO SAVE COAL

(Continued from Page One)

down because of a coal shortage, forcing the lay off of 200 workers. The Louisville and Nashville Railroad announced 200 of its employees had been laid off at its yards at Decourcy, Ky.

Operations in some steel plants were ordered curtailed and railroads began lopping off some passenger train schedules to comply with a federal order for a 25 per cent reduction in coal-burning passenger train service Monday.

The country's first brownouts hit Washington, Chicago and Springfield, Ill. In the national capital, the capitol dome was blacked out and restrictions were ordered on lighting such as the theater marquees. A brownout was ordered for state capitol buildings at Springfield. The 318,000-candlepower floodlights were blacked out on Chicago's Wrigley building.

The official industry organ "Steel" said a continued coal shortage would drive production down to 50 per cent of capacity within two weeks. General Motors reported it had only a 24 hour steel supply.

Furnaces Banked
The Carnegie-Illinois Steel Corporation announced a drastic cut in its steel production in the Gary-South Chicago district, effective Monday. The present rate of 91.4 per cent of capacity will be trimmed to 68.2 per cent. The company added it would bank five blast furnaces in the Pittsburgh district plants Saturday.

The federal power commission urged electric utilities to interconnect their lines to draw as much power as possible from hydro-electric and other non-coal sources.

Lewis gave every indication he was ready for a showdown legal tussle with the government when he accepted, without comment, a court summons to answer a contempt of court citation Monday. If he is unable to free himself of the contempt charge earlier, he will go on trial before a special federal court jury Wednesday.

The coal strike, completely effective at all UMW soft coal mines, spread to the pits of the rival Progressive Mine Workers in Illinois, where 1,600 miners voted to stay out until the UMW strike was settled. At the same time, the PMW announced it was reopening its wage contract with the coal

producers to demand the same take home pay for a 30 hour week that they now receive for working 42 hours. The PMA has some 18,000 members.

Some Miners Return
A minor back to work movement was evident in anthracite mine fields where 10,000 walked out Thursday in sympathy with the soft coal strike. The number of idle dropped to 7,000 Friday after UMW leaders called for a complete resumption of operations.

A formal charge of murder was filed against Sam Curry, 38 year old truck mine foreman at Welch, W. Va., as the aftermath of the fatal shooting of two UMW members Thursday in the first outbreak of violence in the current coal dispute. Curry was accused of fatally shooting the unionists when they attempted to prevent him from unloading coal from a truck.

President Truman, vacationing at Key West, Fla., remained silent on the coal situation but was expected to take personal charge of the government's efforts to prevent an extended strike when he returns to Washington Saturday.

Dining Room Will Feed Veterans At Northern Michigan

Lansing, Nov. 22 (P)—A. N. Langius, state building director, today reported that a temporary dining room to feed 200 to 400 veterans daily at the Northern Michigan College of Education at Marquette is nearing completion.

Langius said the barracks-type dining room, being constructed at an estimated cost of \$11,418, would be used until the new \$900,000 union and dormitory is completed.

SIGLER FILLS FOUR LANSING KEY POSITIONS

Keyes and Bonine were authorized to select three other Senators to make up the "committee on committees" which will appoint the other committees of the session.

Senator Harry F. Hittle, East Lansing, was re-elected president-pro-tem of the Senate.

Meeting the demand of freshman senators for a greater voice in committee affairs the caucus reduced the membership of the Senate finance, judiciary and state affairs committees from nine to seven members, reduced all other committees from seven to five members and ruled that members of the first three major committees could serve on no others.

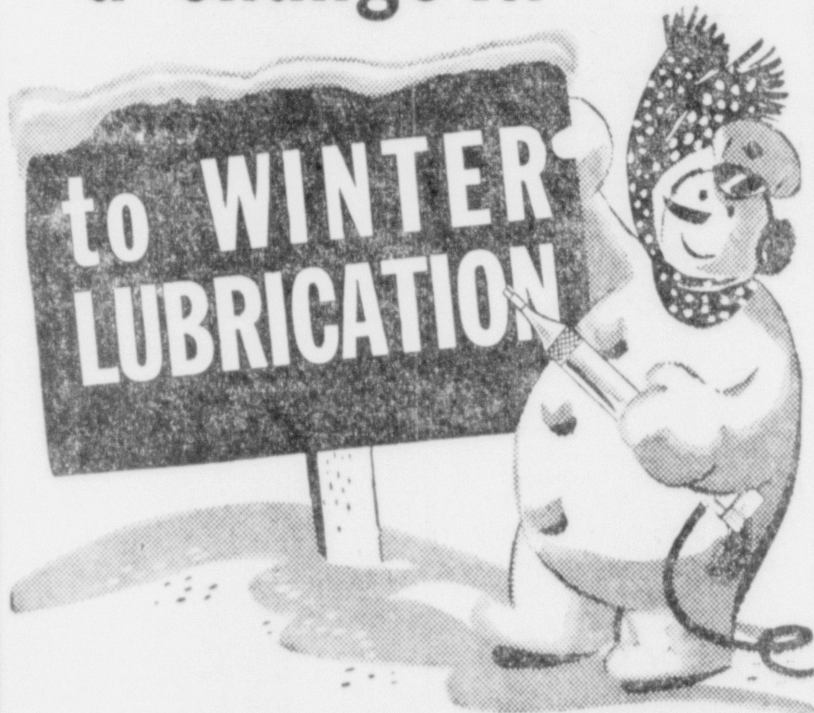

Bomber Hits Bus; 8 Fliers Killed, 30 Others Injured

Locking, England, Nov. 22 (P)—Eight Royal Air Force members were killed and about 30 were injured today when a bombing plane crashed into the double-deck bus in which they were setting out on weekend leave.

The bus, carrying 57 RAF men, was just leaving an RAF station near Locking when the plane, a two-engine Douglas attack bomber, coming in for a landing, sheared off most of the upper deck, hurling the passengers into the roadway.

The bomber's crew escaped injury.

18 Year Olds Are Required To Sign Up At Draft Board

Despite the present draft holiday, youths reaching the age of 18 are still required to register with their local draft boards, the Delta county board emphasized yesterday.

A number of youths reaching draft age have neglected to register, apparently through misunderstanding of the draft regulations. Although no quotas have been received in recent months, youths are still required to register on their 18th birthday anniversary.

James Bridger is said to have been the first white man to have seen the Great Salt Lake of Utah. Bridger was an early Western hunter, trapper, fur trader, and guide.
